

PART : 1

A REVOLUTIONARY LAB TO FIELD APPLICATION OF THE

LAWS OF QUANTUM PHYSICS ON MEGA SCALE

FOR THE BENEFIT OF MANKIND

BY

SWAMI HARDAS LIFE SYSTEM

(ENERGY SYSTEM)

(ENERGY MANAGEMENT / BALANCING SYSTEM)

A revolutionary Swami Hardas Life System (SHLS) invented by Dr. Swami Hardas.

For converting within days -

- The undrinkable/ unusable ground water into healthy drinkable water.
- Increasing the level of ground water.
- Improving the soil fertility.
- Improving the animal and crop productivity.
- Increasing haemoglobin within days etc.
- And all the subjects of human existence.
- Without usage of medicine and chemicals.
- By no existing system, method or technology can above cited results achieved be done especially altering the chemical composition of underground water.

**Explained in brief by -
Mr. Gautam Mandal, (IRS)**

**Dr. Swami Hardas
Inventor, Founder and President of Swami Hardas Life System**

SWAMI HARDAS FOUNDATION

Siddha Sewa Bhavan, Shaktidata, S. No. 50/7, Siddha Nagar,
Wadgaonsheri, Pune-14 (MS) INDIA

E-mail: drswamihardas@hotmail.com Website : www.shls.info

**A REVOLUTIONARY LAB TO FIELD APPLICATION OF THE
LAWS OF QUANTUM PHYSICS ON MEGA SCALE FOR THE BENEFIT OF MANKIND
BY
SWAMI HARDAS LIFE SYSTEM
(ENERGY SYSTEM)
(ENERGY MANAGEMENT / BALANCING SYSTEM)**

I would also like to draw your kind attention towards a **revolutionary Swami Hardas Life System (SHLS)** invented by Swami Hardas **for converting within days, the undrinkable/unusable ground water into healthy drinkable water, increasing the level of ground water, improving soil fertility, animal and crop productivity without usage of medicines and chemicals, increasing haemoglobin content in the blood within days and covers all the subjects of human existence etc. By no existing system, method or technology can these above achievements be done especially altering the chemical composition of the contaminated water table, in-situ.**

The following are the results of field trials conducted by us:

- **Conversion of unusable high iron content of water table of Suliapada Block, Mayurbhanj District, Odisha, India
(approximately 700 square k.m. in area) into usable water.**
- **Purification of fluoride effected ground water** of village Jukal, Andhra Pradesh, villages Ratanpur, Raipali, Khujenpali and GedraSahi, Orissa, Dindor, Mandla and Seoni districts of M.P., India
- **Purification of “Hard” Ground water** of village Salandi, Orissa and Kailali District of Nepal
- **Increase in level of ground water** at village Somanahalli, Karnataka **by 120 feet** within a few days.
- **A mega project is in progress for conversion of saline ground water belt along Poornariver, Maharashtra stretching over 9350 square k.m.**

The above results have been validated by reports of **Department of Rural Water Supply and Sanitation and other government agencies.** Water only when is drawn out is treated with different techniques and only then it is made drinkable as per existing technologies. We have also conducted various in-house experiments to increase soil fertility and reduce soil contaminations and air pollution.

These results achieved by SHLS are considered impossible and startling and can be explained only by the theories of Quantum Physics. Quantum Physics states that 1) The universe around us is not empty. There is a pulsating energy field around us. 2) This energy field inter-connects everything. 3) Matter is made of bands of pulsating energy waves/clouds of energy 4) An electron can jump from one energy level to another energy level, it can change its energy state, resulting into change of the atom 5) If appropriate changes can be made in these energy bands, matter can be altered 6) This energy field is intelligent and connects with human consciousness, emotions and thoughts 7) All possibilities already exist in the quantum level, known as quantum possibilities. With the human mind, we are able to lock the possibility into place and create realities. 8) From space, new realities or matter can be created. From energy, matter can be created. 9) the quantum events display behavior which seem impossible and which are in “contrast” to the classical laws of physics.

The methodology and mechanisms behind the applications of SHLS methods may not conform with the Classical Laws of Physics but they tend to conform with the Laws of Quantum Physics. In fact the methods of SHLS can be stated to be the **practical demonstration and application of the laws of Quantum Physics on a larger scale for the benefit of mankind. The Methodology of SHLS and its relation with various Laws of Quantum Physics are attached.** The changes brought by application of SHLS can be observed and measured by scientific equipments.

The **benefits available** in adopting and applying this Zero budget SHLS is immense, which will **fulfill an herculean task of supplying safe and sufficient water for humans, agriculture and industry and making soil fertile. SHLS covers all the subjects of human existence.** For more details please refer [-www.shls.info](http://www.shls.info).

SWAMI HARDAS LIFE SYSTEM - METHODOLOGY

(ENERGY MANAGEMENT / BALANCING SYSTEM)

- 1) The methods of Swami Hardas Life System (SHLS) are basically **energy management/ balancing systems**, which are founded on traditional Indian Systems. The results achieved are bizzare and unbelievable and have not been achieved by modern day science.
- 2) These SHLS methods are applied by the volunteers of SHLS without using any medicines, chemicals, equipment etc.
- 3) Since, the world around us is interconnected by an **energy matrix, which is able to connect with human consciousness, the methods of SHLS are able to bring appropriate changes, as intended**, in the level ground water, ground water contamination, air pollution, level of haemoglobin, fertility of soil, various ailments of human and animals, crop productivity etc.
- 4) Thus the chemical composition of the contaminated ground water, air pollution, human body, soil animals etc undergoes a radical change, just by the energy management and balancing mechanism of SHLS. Not only is the impact has been found on individual entities but **the same is documented over a huge area covering of hundreds of square kilometers, as everything is interconnected**.
- 5) These changes have been observed, measured and quantified by scientific equipments and gadgets conducted by various government agencies of India. The changes effected are over all natural and all living objects i.e. air, water, atmosphere, soil, humans, plants, animals etc as at the quantum level, the possibility is endless. Rainfall, increase and decrease in temperature by over 5-8 degree centigrade covering over 20-25 square kilometers have been experimented in - house experiments. Controlling of spread of communicable disease etc have been conducted in - house. **Whatever possibility that is intended or desired by the volunteer of SHLS, on the application of the methods of SHLS, becomes the reality**.
- 6) Further, the same set of methods of SHLS are applied for all natural and living matter. **Different methods are not applied for nature, animals, plants, soil etc as at the quantum level, everything is just bands/clouds of energy which are similar in nature**. The energy bands are the same, only their arrangement or charge may differ.
- 7) Level of ground water is increased by method of **conversion of energy into matter**, something which is **still unfathomable for modern day science**. Extra ground water has been created in huge quantities.
- 8) **The methodology and mechanisms behind the applications of SHLS methods may not conform with Classical Laws of Physics but they tend to conform with the Laws of Quantum Physics**.
- 9) **In fact the methods of SHLS can be stated to be the practical demonstration and application of the bizzare laws of Quantum Physics on a larger scale for the benefit of mankind. It can be deemed to be the Lab to Field application of the Laws of Quantum Physics**.

The principles of quantum mechanics known to scientists as of today and also other advanced principles and their applications known to traditional Indian Science (which may be discovered by Quantum Physicists in the future) are practically applied to get these mind boggling and stupendous results. These changes can be observed, analysed and measured by modern scientific equipments and gadgets. However it can be stated that till date no such system, method, technology has been invented by humankind, whereby the atomic structure of matter can be changed over such a vast area by an energy management System without the application of electronic, electrical or mechanical equipments.

AIM OF SWAMI HARDAS LIFE SYSTEM

A journey with science, beyond science for achieving the aim - **"MAKING THE LIFE GLORIOUS"** i.e.

- 1) Making life of all in world glorious and
- 2) Making nature favourable for them all by a path breaking revolutionary technology invented, developed, applied and achieved actual results by Dr. Swami Hardas.

It covers all the subjects of human existance.

- Achieving results like science but most of the times results achieved are much beyond science and scientific methods which are totally unbelievable and astonishing.
- Any person with common understanding can learn it in a few hours can solve self and others problems and

get health, peace and glory without medicine and money.

- Saving sufferings and lives of millions.
- Savings huge amount of money.
- Totally harmless, no side effects, no by-products, no harm even used in incorrect way.
- It is "ZERO BUDGET" system, expenses involved are nearly zero.

Fulfilling the needs and making life journey successful is the aim of human life – hence, this must be achieved by appropriate methods and systems of life.

Today's methods and systems are based on science. Science is based on - observations, suitably tested, verified with well organized knowledge. Science has brought innumerable comforts to the mankind. Hence, this is also known as 'Scientific era'.

But, this is also a fact that science has multiple limitations and drawbacks in fulfilling the needs of mankind. This may be understood with the observations as mentioned here under:-

- 1) Almost everyone across the globe is suffering from one or more problems.
 - 2) More than 70% people around the world cannot afford to avail the present scientific health care benefits.
 - 3) Poverty, hunger and malnutrition are the greatest problems.
 - 4) There is no proper solution for many health problems and related issues.
 - 5) Global problems viz. cyclone, pollution, natural calamities, global warming, ozone layer depletion etc. and many more.
 - 6) Uneven rains, ground water level, pollution of water, water contents etc.
 - 7) Craze - and many more, Lack of sense of humanity and brotherhood.
- Practically only 8 to 10% people across the world, can afford today's health care systems and other scientific methods.

Even ruling governments in several countries in the world find difficulties in providing today's health care system to their people.

It means that science alone is not sufficient. Something more is necessarily needed to remove the hurdles coming in way of fulfilling the needs of mankind. Swami Hardas was restless from childhood and as such, he was struggling to find out some solution to overcome these problems. He studied texts and scriptures, interacted many persons and also tried as well as analyzed several methodologies. He was also working in scientific organisation for a few years, but could not get any satisfactory solution.

This thought gave new direction to Swami Hardas who struggled for finding out the solutions. Finally he devised a System which removes all draw backs and limitations of scientific methods and covers all the subjects of human existence.

This covers all the subjects of life and covering life - so - called Life System.

It was invented, developed, applied successfully in various conditions by Dr. Swami Hardas, resulting to astonishing and unbelievable results. He taught this to numerous people in India and throughout the world hence, it is called Swami Hardas Life System (SHLS).

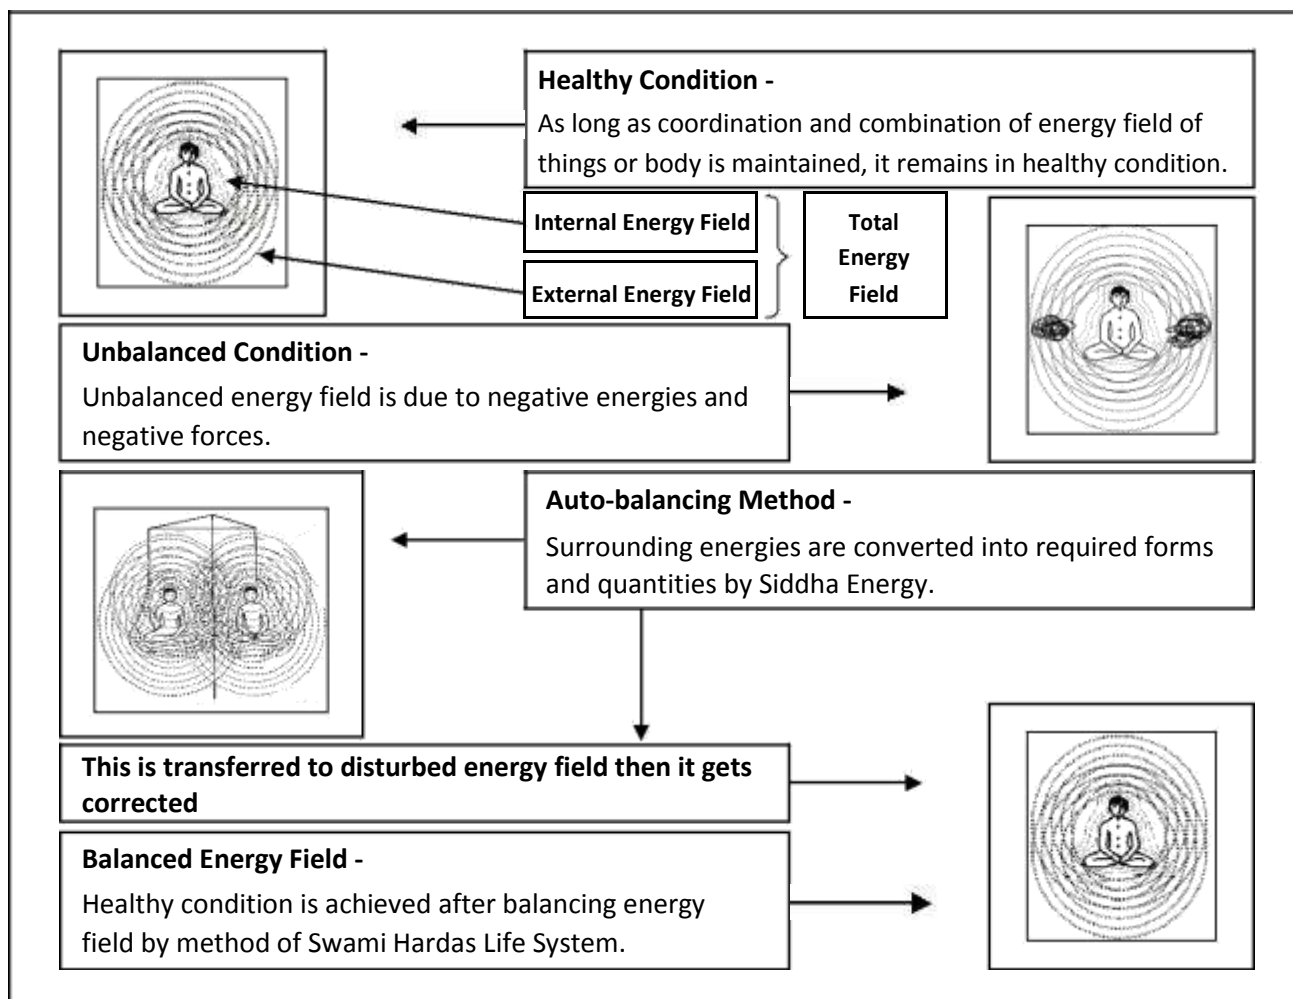

SWAMI HARDAS LIFE SYSTEM (ENERGY MANAGEMENT / BALANCING SYSTEM)

It works on the principles of 'energy', 'energy field', 'conversion of energy', 'transfer of energy' and 'correction of disturbed energy field' bringing it to 'Natural', 'Ideal' and 'Positive' state.

- Swami Hardas Life System corrects the 'Disturbed Energy Field' as follows -
 - (1) **By** - converting surrounding energies into the required types and quantities of energies.
 - (2) **By** - transferring the same to the 'disturbed energy field'.
 - (3) **Thereby** - changing the chemistry of the body and bringing the body to its Natural, Ideal and positive state.
 - (4) **Resulting in** - achievement of total Health, Peace and further by developing it – Glory.

Human or items can be made by a specific energy methodology energy converters. Such - persons can convert, nearby energies in to the desired form of energy and then apply it to the disturbed energy field or where ever necessary. Swami Hardas Life System works on the principles and laws of energy like - Law of conservation to energy and others.

The application of energy and results achieved are is observed with scientific methods by resorting to 'pre' and 'post' checks and by preparing data, statistics etc.

The facts stated above hold good not only for health but also for all other problems of human existence.

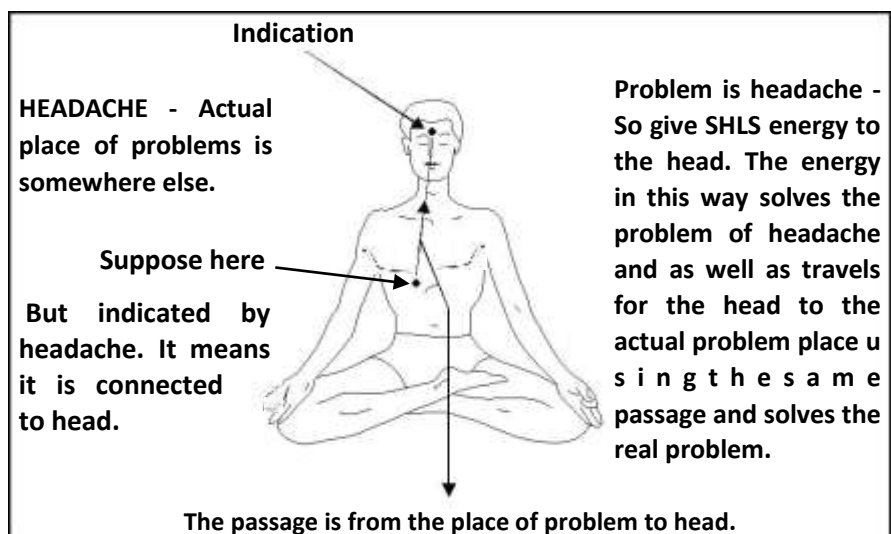

There are many more specialities of SHLS which are today's real requirements for achieving health, peace, development, agriculture and all subjects of human development in real sense, such as -

- 1) **Affordability** - Swami Hardas Life System's training, guidance are totally free of cost for all. So even the poorest person can afford and practice to solve self and other's problems of life.
- 2) **Reachable** - It can reach every hook and corner of the country and across the globe because requirements are nothing. One or two SHLS trained persons are the only required, which may easily be provided.
- 3) **Simplest** - The system is so simple that every person possessing common understanding capability including those who may not read and write, would be able to learn and practice the same in a couple of hours for solving own and others problems to make life healthy, peaceful and progressive without medicine and money.
- 4) Like this we can make all capable and make life of all glorious.
- 5) **Coverage of population** - It covers all the subjects and matters of human existence like -
 - (a) All subjects of life like - Health, Peace, Progress, Development and all.
 - (b) All subjects concerning life like - Agriculture, Cattle, Air, Soil, Water and all.
 - (c) All matters affecting life like - Temperature, Rain, Winds and all.- With proper support - nearby 100% population of any area, nation and world may be covered.
- 6) **Whole mankind** - nearly 100% population of any area, nation and world on support required for the same.
- 7) **Requirements** - The requirements for conducting experiments are nearly nil like -
 - (a) Skilled, Qualified person, Doctors, Specialists or Specialised Workers etc. not required.
 - (b) Infrastructure, Machines, Equipments and allied materials etc. not required.
 - (c) Medicines and Material etc (It should be non-medicinal system / method) not required.- So that it can be used anywhere, any time and at any place hence,
 - (1) Best system for under developed, tribal areas, villages in different areas, villages in remote place etc.
 - (2) Meets most of emergencies.
- 8) **Safety** - It is the safest system. No side effects, no by-products even if used incorrect way, no problem. It is safe.
- 9) **Simplest problem solving method** - Problems are solved on the basis of practical indications hence, the problem is attended immediately and covers the indicated problem and other concerning problems quickly results are instant.
- 10) **Multiple use** - SHLS may be used for single problem, however multiple problems may be solved. It is a system of correction of energy field of the body. It corrects the disturbed energy field.

- 11) Longevity** - The system brings body to 'Natural', 'Ideal' and 'Positive' state by solving all the problems hence, longevity is enhanced and the same can be maintained for whole life.
- 12) Immunity** - Immunity of the body is increased to a great extent, it is practically seen that, who has learned this system and practiced regularly, has not suffered from any viral infection in India and anywhere in the world.
- 13) Number of persons / problems** - Only 2 or 3 persons can make whole village of about 100 persons partially healthy, peaceful, progressive by solving their all problems in a few hours only. This is made possible because -
- There is one method of treatment for solving nearly all problems and other methods are supporting.
 - The method every person with common understanding capability can learn and practice in only a few hours.
 - Such person can solve / heal - this way problems are solved.
- 14) The most important that** - If Swami Hardas Life System is applied for one problem - it solves that problems plus it solves other problems also.
- 15) Increasing abilities** - The person who practices Swami Hardas Life System for self and others solves problems - in return he/ she gets direct benefit - by - (a) Increasing abilities and capabilities thereby (b) Solving such persons problems faster and better. (c) Such person gets real happiness. The person/ persons offering selfless services of Swami Hardas Life Systems are the happiest person in the world. They enjoy life in real sense.
- 16) Siddha Energy Relay** - Swami Hardas Life System can relay - Siddha Energy to any place / person / area or all for solving the problem / problems - (a) where accessibility is difficult, (b) Giving support to persons offer in Swami Hardas Life System services for better and faster results.
- 17) Root Causes** - Swami Hardas Life System reaches to root causes and solves the problems nearly forever.
- 18) It is capable** to solve all the problems and make life glorious of all in very short time.

• **Suppose the indication is headache -**

- Then energy is given to the head.
- Such energy travels from head to the place where the real problem (root cause) lies.
- The problem / problems at root cause are solved this way.
- Like this the problems from their root are solved and headache is also relieved

METHODS OF PRACTICAL APPLICATION

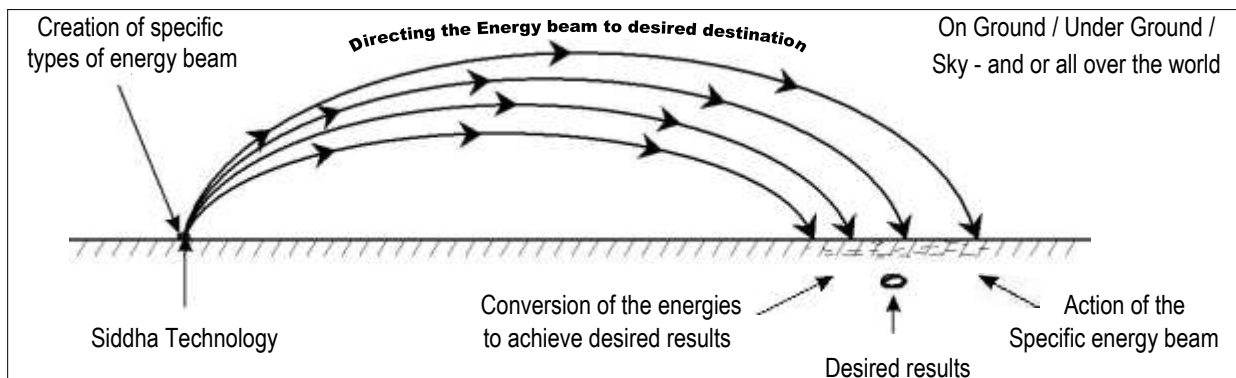

Methods of practical application for achieving desired results are

- (1) Direct practical application methods
- (2) Siddha energy relay methods
- (3) Combination of the above two.

- (1) **Direct practical application method** - There are many direct application methods in which - The person or item or problem is solved by direct application which are taught to our SHLS volunteers methods.
- (2) **Energy Relay method is** - a creation of Energy Beam of specific type and transferring the same to the choice of destination, to convert energy there, which contributes in achieving, desired result. The results achieved are not only better but also faster and totally harmless.

The Energy Relay is the latest development of 'Swami Hardas Life System' which has proved most successful. It had actually started its research and development work on 11-11-11 i.e. 11th November 2011 and has achieved totally astonishing and unbelievable results in all the subjects of life and concerning actual life, which are much beyond Science and Scientific methods because it is a part of 'Swami Hardas Life System'. It was invented, developed, applied and tested by Swami Hardas himself.

The same can be understood with the help of diagram as shown below:-

- **The following major steps are generally adopted for achieving desired results:-**
 - (a) Identify the problem required to be solved.
 - (b) Carry out pre checkup for related problems.
 - (c) Energy method is applied to create specific type of Energy Beam and directed to the desired destination.
 - (d) The specific type of Energy Beam enters into the 'body' / 'place' and conversion of energy begins, which results into achieving desired results without any harm and brings the body to its 'Natural', 'Ideal' and 'Positive' state by changing the chemistry of the body.
 - (e) At the end, post checkup is carried out, noted and compared with the readings of pre checkup already carried out.
- (3) **Combination of both given above** - Combination of both can be done in many cases for achieving better and faster results. This is decided by Dr. Swami Hardas & Research & Development establishment of Swami Hardas Life System.

HOW THE DESIRED RESULTS ARE ACHIEVED

Swami Hardas Life System is energy system which brings anybody, item to it's natural, ideal, positive state by correcting the disturbed energy field of the body. The changes occurs on application of Swami Hardas Life System in following stages -

- 1) Steps further deterioration.
- 2) Physical change - Change in colour, taste, smell and stops pains.
- 3) Bacterial change - Harmful bacteria goes off.
 - These three steps are very important.
 - The problem is solved to great extent.
 - It is in totally safe range. Then the chemical changes are not of much important.
- 4) Chemical change - Chemical changes is a very slow and steady process.
 - **Sustainability** - Generally is for very long time but depends on harmful effect of harmful factors.

The methodology of getting actual results

SI. No	PRESENT METHOD	REMARKS	SWAMI HARDAS LIFE SYSTEM	REMARKS
1.	Diagnosis- Finding out problems is necessary	Experts, equipments and other things are necessary.	Ask the sufferer and identify the problem.	Experts, equipments and other things not necessary.
2.	Select proper solution/ medicine	Experts, items, processes, medicines etc. are necessary introduce.	Convert nearby energy to required type and quantity	Any person who has completed training can do this.
3.	Apply/introduce items/ medicines	Processes, medicines and items etc. are necessary	Transfer the same to the disturbed energy field.	Any person who has completed training can do this.
4.	Then the chemical actions and reactions will start	This may results in by-products and side effects etc.	The disturbed energy field is corrected	Any person who has completed training can do this.
5.	The proper energy for solving the problems is produced.	This may results in by-products and side effects etc.	The problems are solved.	
6.	Such energy will start solving the problems			
7.	The problems are solved	Repetition may be required	<ul style="list-style-type: none"> • No side effects • No by-products • No re-occurrence 	Time and money saved to great extent.

PRACTICAL APPLICATION OF SHLS METHODS

Methods of practical application depends on actual condition at the particular place of giving services which are generally divided in following ways -

(1) Scientific Method -

- (a) Pre check up.
- (b) Scientific and general of Swami Hardas Life System.
- (c) Post check up - scientific and general.
- (d) Giving necessary guidance.
- (e) Sustainability check up is generally done.

- **Swami Hardas Life System Research and Development** is established for scientific study.

(2) General conditions - General conditions gives nearly correct indications procedure for the same are not available.

- (a) Find out general condition if necessary nothing it down.
- (b) Application of Swami Hardas Life System.
- (c) Find out the change if necessary note it.
- (d) Giving necessary guidance.
- (e) Sustainability check up is done.

- This way is the best method for under developed areas, remote areas and wherever facilities are not available.

- **Important** - Point (b) in both the above application of Swami Hardas Life System.

- (a) Generally sufferers are given short training then they themselves solve their own problems and other problems.
- (b) This way number of persons problems can be solved at a time.
- (c) Swami Hardas Life System can solve nearly all type of problem by only one method and very few supporting methods.
- (d) Such persons can solve their problems in future also and others problems also.
- (e) Generally total time taken for this is all about two or three hours.

(3) Energy Relay - It is made possible by Swami Hardas Life System to give the service through relay of Energy. For -

- (a) Where it is difficult to reach to solve the problem/ problems.
- (b) Giving support to the services are being given.

Most important - support and co-operation from all concerning persons and authorities is the most important factor.

SPECIALTIS OF OFFERING SERVICES

If the services are reached for the benefit of mankind by means of selfless services that is neither for money nor for the fame or anything else but only for humanity then it will become 'SHLS Service' which world become so powerful that it may transform from even the world for betterment.

Dr. Swami Hardas has developed a system of offering services to masses based on four basic principles manely selfless services, humanity, good deeds and research. It is capable of providing services all around the country and abroad however, the people living in underdeveloped areas, tribal belt and those who are down trodden economically backward are preferred. It is due to the fact that such - This is made possible -

- | | |
|--|--|
| (1) Without Medicine | (2) Without Money |
| (3) Without Material | (4) Without Infrastructure |
| (5) Without Equipments | (6) Without Specialised Machinery |
| (7) Without Specialised, Qualified Staff | (8) Without Harm, Safest |
| (9) By direct and or Energy Relay Method | (10) By our volunteers |
| (11) By selfless service, good deed, humanity and research | (12) By sufferers, needies etc. |
| (13) By making them capable | (14) By giving training and guidance |
| (15) By covering many persons at a time | (16) For the day and whole life |
| (17) Time as per convenient to the suffer needs | (18) Solving all the problems |
| (19) Making life glorious | (20) Services from the bottom of the heart |
| (21) With prestige and dignity like brother and sisters. | |

This is "ZERO BUDGET" system.

The communications are both ways, either we approach to sufferers or they approach us. The training and guidance are almost free. The services are also as much as free.

HEALTH TO ALL IN THE WORLD

'Health to all' is the aim of WHO. This could not be achieved so far, because of many limitations and drawbacks of the present health system.

The main reasons are -

SL NO	REASON	PRESENT SYSTEM	REQUIREMENTS
1	Affordability	Very costly majority of the people cannot take benefit.	Should be free or nearly free.
2	Specializations	All type of specialist cannot be made available everywhere every time.	Should be simplest. So that any person can learn practice and take benefit.
3	Infrastructure machines equipment	Cannot be made available at every place.	System should be complete Should not have used anywhere any time.
4	Side Effects	There are many side effects.	Should not have any side effect no- by Products, Should be totally harmless.
5	Medicine and material	Cannot be made available everywhere every time.	Should be medicines less.

This is the description of Siddha Technology of Swami Hardas Life System

(1) If we want to give health to all -

(2) Achieve the aim 'Health to all' -

- The best method is - (1) Make every person capable to solve health problems by SHLS.

Achieving and maintaining health.

To be Strong, Capable, Creative

Teach to all in schools colleges etc.

- So that primary health problems of self and others are solved without medicine, anywhere anytime. Hence, it is the best system for poor, Underdeveloped areas, and is the best system of meeting nearly all energies.
- It is also good for all military personnel, police and similar service personnel.

And (2) Major health Problems - should be solved by present system.

Whole Area – Nation can be made totally healthy within few months

There is only one way which can fulfill the aim - 'Health to all'. That is by little modification of the present health system.

1) Making Swami Hardas Life System - as primary health system which is complete in all respects.

2) Making present system as main system.

There is no more other way because present system has many many limitations, mainly -

1) All types of specialists, qualified health workers cannot be provided everywhere every time.

3) All sorts of infrastructure cannot be made everywhere.

- And many more limitations.

This all can be covered by Swami Hardas Life System moreover. By adapting this system nearly all the countries can give health to all in their country within the budget for the health of the nation without disturbing present health system. The same staff and public participation can make this possible.

HEALTH TO ALL

Health – as per World Health Organisation (W.H.O)

“Physical, mental and social well-being and not only absence of disease or infirmity”.

<p>All – means all in the world</p> <ol style="list-style-type: none"> (1) Individual (2) Every Family (3) Every Society (4) All human being (5) Animals and birds (6) Plants, trees (7) Inanimates up to some extent 	<p style="text-align: center;">Health</p> <ol style="list-style-type: none"> (1) Preventive, curative, progressive (2) Minor health problems (3) Major health problems (4) Viral diseases (5) Health affecting factors (6) Problems in under- developed areas (7) Global health problems 	<p>Specialities -</p> <ol style="list-style-type: none"> (1) No medicines (2) No diagnosis or minor diagnosis. (3) Affordable to all – Free or nearly free. (4) Simplest – easy to learn and practice. (5) Covers nearly complete range of life. (6) Harmless, no side effects. (7) No requirements – hence it can be practiced any time, anywhere.
---	--	---

Application of Swami Hardas Life System for health –is done by the organization and with governments and prestigious organizations in India and many countries in the world successfully and most scientific methods astonishing results achieved in the following areas:

Sl. No.	SUBJECT	% SUCCESS	REMARKS
1	Making body immune to disease	90%	Experience of last 18 yrs.
2	Making body immune to viral diseases	99%	Experience of last 18 yrs.
3	Solving all health problems in under developed areas	95%	1) Experience of last 18 yrs. 2) With government support from last one year.
4	Anaemia	90%	1) Experience of last 18 yrs. 2) With government support from last one year.
5	Blood Pressure	60%	1) Experience of last 18 yrs. 2) With government support from last one year.
6	Diabetes	60%	1) Experience of last 18 yrs. 2) With government support from last one year.
7	Child Mortality	40%	Experience of 12 yrs.
8	Women's health, Maternal Mortality	50%	Experience of 12 yrs.
9	Other health problems like - Body pains, kidney disorders, paralysis, polio, spondylitis etc.	60%	Experience of 12 yrs.
10	All health problems by Energy Relay method - General	30%	Experience of 12 yrs.
11	All health problems by Energy who follows the methods	40%	Experience of 12 yrs.
12	All health problems by Energy who follows the methods and send postcard size photo and donation	70%	Experience of 12 yrs.

Methods -
Regular training, guidance and workshops are conducted for health problems and results recorded in a scientific way.
Generally it is done for groups – small villages or areas.
Individuals also can take benefit.

How to take benefit –
Interested persons / authorities should arrange the programme.

Programmes conducted by the Organisation with the support of volunteers.

Health - The participants suffering from anaemia underwent workshop at Lonkar Madhyamik school, Wadgaonsheri, Pune and Paniv Dist-Solapur. The Average rise in Hb% from 2gm to 5gm was noted in just 2 hours workshops. More than 500 such programmes on this health issue were conducted at various places with 90% success.

Blood Pressure - The blood pressure drop from 190/140 to 130/85 in just 1 hour practice at workshop conducted at D.G.M Medical and Ayurvedic College, Gadag, Karnataka was noted. About 1000 such workshops on bringing blood pressure to its normal stage were organized, resulting into 85% success.

Diabetes - The blood sugar drop from 360 to 150 , overcame insulin dependence in just 2 hours . practice at workshop conducted at S.D.M. Temple Uganda. About

1000 such workshops based on this health issue were organized, resulting in 65% success.

Programmes conducted by Organization with support from Govt. in a few States.

Health - The participants suffering from anaemia underwent workshop at Bagalkote, Gonka . The Average rise in Hb% 2.2gm was noted in just 2 hours workshops in Karnataka. More than 30 such programmes were

conducted at various places in Karnatak and Andhra Pradesh with 90 % success .

Blood Pressure - The blood pressure became normal from 190/140 to 130/85 in just 1 hour at workshop conducted at D.G.M Medicaland Ayurvedic College, Gadag, Karnataka. . About 100 workshops on bringing blood pressure to its normal stage were organized, resulting into 85% success.

Diabetes - The blood sugar drop from 360 to 150 in workshops held at Karnatka The application of Swami Hardas Life System was doneon diabetic patients at Karnataka in which the blood sugar drop from 360 to 150 was noticed in just 2 hours time. About 30 such workshops were organized, resulting in 55% success.

SOLVING HEALTH PROBLEMS

Aim - 'Health to All' making every one physically, mentally and socially well.

Achievements - Those who have completed training and practicing Swami Hardas Life System have developed the immunity state. It is physically, mentally, socially well being state. All the problems in life make direct effect on energy field, which can be corrected by Swami Hardas Life System there by solving the problem. **Till date we have got 95% success in solving various health problems.**

General procedure - Methodology 1

- Preparing case sheet for each person.
- Writing all problems
- Carry out check up as necessary
- Training, guidance, workshop for about 2 hours
- Post check up
- Complete the case sheet
- Find out the difference- Guidance what to do further to be healthy, strong, capable and creative.

Observation - General Health problems like pains, giddiness etc to get relief. Problems like Paralysis, headache, spondylitis may take some more time.

Parameters - All the parameters have limitations like - (1) Normal (2) High (3) Very high etc.

Special Procedure - Methodology 2 -

Energy relay Programme -

Which is done by Swami Hardas Life System at Shaktidata, Pune and can be attended by any person in the world- find out timing and send names to Swami Hardas Life System.

Benefits -

- 1) All the health problems are solved by the sufferers themselves because they are trained to solve their own and others problems. They practice themselves and became totally healthy, peaceful, Progressive and Glorious.
- 2) All should take Doctors advice and follow their treatment take support of Swami Hardas Life System.

This is achieved by Swami Hardas Life System -

- 1) Without medicine
- 2) Without money
- 3) Without material
- 4) Without infrastructure
- 5) Without equipment
- 6) Without Specialist, Machineries
- 7) Without any harm (Safest)
- 8) By Direct and or Siddha Energy Relay Method
- 9) By Siddha Volunteers
- 10) By sufferers, needies, local residents
- 11) By making them capable
- 12) By giving them training, guidance as necessary
- 13) For the day and whole life
- 14) Time - as per convenient to the sufferers, needies
- 15) To - Solve their all the problems of health, peace,

progress, agriculture, livelyhood, deaddiction, children development, ladies problems, water problems all all to make their life and area glorious.

- 16) No. of persons at a time.
- 17) No. of places at a time.

SOLVING WOMEN'S HEALTH PROBLEMS

Aim - Solving all the problems of health of womens.

Achievements - Lakhs and lakhs of women havetaken training of Swami Hardas Life System. They are solving their own and other womens problems in India and through out the world.

Specialities - Once a woman has taken training of Swami Hardas Life System and applying the same they all are healthy. Women problems are solved upto 50% through Swami Hardas Life System. Since last 12 years we have we are focusing on women health issues. Further support from government authorities can increase our efficiency.

Methodology 1

Learn and practice Swami Hardas Life System. Learning take may few hours, where as practicing will take a few minutes per day.

Methodology 2

Those who have any Health problem - attend workshop as is given - in solving health problems.

Methodology 3

Attend Energy relay programme

See Solving health problems .

Benefits -

- 1) All the women in the world can be made totally healthy.
- 2) Saving lives and reduce their sufferings.
- 3) Saving huge amount of money.

Very important -

- 1) All the women through out the world can be made healthy.
- 2) Major problems like anemia, maternal health can be solved great extent.

With recreance to WHO The situation is as under-

"I want my leadership to be judged by the impact of our work on the health of two populations: women and the people of Africa."

Dr Margaret Chan, Director-General

While life expectancy is higher for women than men in most countries, a number of health and social factors combine to create a lower quality of life for women. Unequal access to information, care and basic health practices further increase the health risks for women.

Discrimination on the basis of their sex leads to many health hazards for women, including physical and sexual violence, sexually-transmitted infections, HIV/AIDS, malaria and chronic obstructive pulmonary disease. Tobacco use is a growing threat among young women, and mortality rates during pregnancy and childbirth remain high in developing countries.

Once thought to occur mainly in wealthier countries, the health impacts of cardiovascular disease, cancers, diabetes, depression and other mental, neurological and substance abuse (MNS) disorders are increasingly felt by women globally. In fact, non communicable diseases (NCDs) account for 80% of deaths among adult women in high-income countries; 25% of deaths among adult women in low-income countries are attributable to NCD.

Selfless services to poor and needy women - Ghana

R Remote, tribal areas are served with special focus on women

A lady suffering from stroke before healing being healed Ghana

Receiving huge relief after healing Ghana

Practical training of volunteers in remote areas Ghana

MATERNAL MORTALITY

Aim - Solving the problems of maternal mortality.

Achievement - Those mothers who have learnt and practicing Swami Hardas Life System are totally healthy.

Specialities - Body is brought to Natural, Ideal positive state by Swami Hardas Life System.

The work is under progress till date we have got 50% success in reducing maternal mortality in underdeveloped areas by local villagers without money and medicines.

METHODOLOGY 1

- 1) Learn Swami Hardas Life System it takes a few hours
- 2) Follow rules and regulation and practice as per guidance
- 3) Upon regular practice you can overcome all preventable causes and chronic conditions on your own.

METHODOLOGY 2

Under emergencies contact nearest Sewa Kendra for guidance or Pune.

METHODOLOGY 3

attend energy relay programme see health problems.

BENEFITS -

- 1) Healthy mothers and healthy babies are made possible.
- 2) Suffering and lives can be saved.

Very important - Maternal mortality problems can be

mortality by providing solved to a great extent through out the world.

Today's Condition -

Maternal health refers to the health of women during pregnancy, childbirth and the postpartum period. While motherhood is often a positive and fulfilling experience, for too many women it is associated with suffering, ill-health and even death.

Key facts -

- i) Every day, approximately 800 women die from preventable causes related to pregnancy and childbirth.
- ii) 99% of all maternal deaths occur in developing countries.
- iii) Maternal mortality is higher in women living in rural areas and among poorer communities.

Other factors that prevent women from receiving or seeking care during pregnancy and childbirth are: -

(1) poverty (2) distance (3) lack of information (4) inadequate services (5) cultural practices.

To improve maternal health, barriers that limit access to quality maternal health services must be identified and addressed at all levels of the health system.

WHO response

Improving maternal health is one of WHO's key priorities.

WHO is working to reduce maternal

evidence-based clinical and programmatic guidance, setting global standards, and providing technical support to Member States. In addition, WHO advocates for more affordable and effective treatments, designs training materials and guidelines for health workers, and supports countries to implement policies and programmes and monitor progress.

Workshops & demonstrations are conducted for improving maternal health, Ghana

Improved maternal health by SHLS leads to healthy children, Uganda

Free guidance is given to women to live a healthy life Uganda

Remote, tribal areas are served with special focus on women, Kenya

Advanced training courses are conducted at Pune, India

SOLVING CHILD HEALTH PROBLEM

Aim - All children should be totally healthy.

Achievement - The mothers who have learnt SwamiHardas Life System are healthy their children are also very healthy. About 60 % success is achieved in improving child health , this would increase upto 80 % if we get timely co-operation from government authorities and villagers.

Specialities - Swami Hardas Life System brings the bodyof Mother and Children to natural, ideal, positive state there by total health is achieved.

METHODOLOGY

Methodology 1

All the members particularly ladies should learn & practice Swami Hardas Life System and practice.

Methodology 2

Attend workshop of Swami Hardas Life System in your area or at Pune.

Methodology 3

Attend energy relay programme.

BENEFITS -

- 1) All the children can be made totally healthy with little practice.
- 2) Next generation can be made healthy, strong & creative.

VERY IMPORTANT -

- (1) Making all children healthy is very simple matter, nothing but involving them in the system requires minor efforts.
- (2) Eradication of malnutrition and other leading causes of death can be achieved by SHLS.

Actual Facts -

- Children represent the future, and ensuring their healthy growth and development ought to be a prime concern of all societies. Newborns are particularly vulnerable and children are vulnerable to malnutrition and infectious diseases, many of which can be effectively prevented or treated.
- 6.9 million children under the age of five died in 2011 - nearly 800 every hour. Most of these children could survive and thrive with access to simple, affordable interventions.
- The loss of a child is a tragedy - families suffer and human potential is wasted. WHO is improving child health by helping countries deliver integrated, effective care in a continuum, starting with a healthy pregnancy for the mother, through birth and care up to five years of age. Investing in health systems is key to delivering this essential care.

Key facts

- 6.9 million children under the age of five died in 2011.
- More than half of these early child deaths are due to conditions that could be prevented or treated with access to simple, affordable interventions.
- Leading causes of death in under-five children are pneumonia, preterm birth complications, diarrhoea, birth asphyxia and malaria. About one third of all child deaths are linked to malnutrition.
- Children in sub-Saharan Africa are about 16.5 times more likely to die before the age of five than children in developed regions.

Child is future hence special focus is given for all round development Ghana

Overcoming malnutrition by SHLS -Uganda

Regular follow up by volunteers Kenya

Regular follow up by volunteers Kenya

Over coming anemia and other issues by SHLS Uganda

ERADICATION OF VIRAL DISEASES

Aim - Eradication of viral diseases or making viral disease least harmful.

Achievements - Those who have learnt Swami Hardas Life System are not affected by viral disease and those who got affected by Viral disease got good relief by Swami Hardas Life System in India and through out the world. **Making body immune to viral diseases we have got 98% success without money and without medicine.**

Specialities - No special test or special diagnosis are necessary as direct application of Swami Hardas Life System is done.

METHODOLOGY 1

- 1) Learn Swami Hardas Life System it takes few hours.
- 2) Follow rules and regulation & practice as per guidance.
- 3) Your body will become resistant for all diseases and particularly for all viral diseases.

METHODOLOGY 2

On attack take immediate Swami Hardas Life System treatment which will give very good amount of relief immediately.

METHODOLOGY 3

attend energy relay programme see health problems

Benefits - Viral diseases can be brought to control instantly without medicines and money.

Very important - Viral diseases can be made least harmless through out the world without money and medicine.

Burden caused by viral diseases WHO -

- i) Hepatitis A is a viral liver disease that can cause mild to severe illness.
- ii) Globally, there are an estimated 1.4 million cases of hepatitis A every year.
- iii) The hepatitis A virus is transmitted through ingestion of contaminated food and water, or through direct contact with an infectious person.
- iv) Cholera is an acute diarrhoeal disease that can kill within hours if left untreated.
- v) There are an estimated 3–5 million cholera cases and 100 000–120 000 deaths due to cholera every year.

Great success in solving viral diseases -

A Successful movement launched by Dr. Swami Hardas in the wake of eradication of epidemic \ viral disease in U.P. INDIA. The campaign was under taken during 4th Oct - 6th Oct , 2008 & 1st Nov. 2008 it covered 146 villages in Uttar Pradesh who were victims of mysterious virus. By Swami Hardas Life System through volunteers all of these villages retained health without money, medicine and by themselves.

It was certified by the village pradhans (chiefs) and honorable members of the village.

We have reaffirmed the condition of the villages after 25 days and found them completely Healthy, Peaceful and co-operative.

In Maharashtra during Chicken guinea out break . No SHLS practitioner got affected more over victims of the out break got relief by Swami Hardas Life System.

survey after 10 days was done. found them healthy & peaceful Uttar Pradesh

volunteers manage themselves to reach villages, Uttar Pradesh

after survey they were called at one place Uttar Pradesh

they received relief on the spot due to training Uttar Pradesh

they became peaceful and able to solve other problems Uttar Pradesh

TOTAL HEALTH

With out medicine, without money and without side effects

Aim - Achieving total health i.e. physically, mentally and socially.

Achievements - Crores of people have achieved total health without money and medicine by practicing for a few minutes Swami Hardas Life System in India and through out the world. We have got 90% success in delivering the total health to all those who have learnt Swami Hardas Life System.

Specialities - Swami Hardas Life System brings body to ideal natural positive state there by total health is achieved.

Methodology -

- 1) Complete training of Swami Hardas Life System and practice regularly as per guidance. Ask for guidance wherever necessary. All services are free of cost
- 2) Attend workshop
- 3) Attend regularly energy relay programme.

Benefits -

- 1) Total health can be achieved without any expenses.
- 2) Efficiency capability can be increased.
- 3) Productivity can be increased.

Very Important -

'Health to All' can be achieved in shortest possible time.

Existing Facts:

http://www.who.int/mediacentre/news/releases/2010/whr_20101122/en/index.html

WHO urges all countries to strengthen health financing so more people can use services.

Governments worldwide are struggling to pay for health care. As populations get older, as more people suffer chronic diseases, and as new and more expensive treatments appear, health costs soar.

Even in countries where health services have traditionally been accessible and affordable, financing mechanisms are increasingly stretched. In countries that depend heavily on people paying directly for services at the point of delivery, health bills push 100 million people into poverty each year.

http://www.who.int/mediacentre/news/releases/2012/malaria_20121217/en/index.html

New report signals slowdown in the fight against malaria

17 DECEMBER 2012 | MONROVIA, LIBERIA/ GENEVA - During the past decade, a concerted effort by endemic countries, donors and global malaria partners led to strengthened malaria control around the world. The scale-up of malaria prevention and control interventions had the greatest impact in countries with high malaria transmission; 58% of the 1.1 million lives saved during this period were in the ten highest burden countries.

Health in all respects is delivered to all without money and medicine - Ghana

They get ability to solve his own and others problems, Kenya

Practice under guidance of experts improves their confidence Kenya

Upon regular practice they test happiness by self less service - Uganda

Workshops are organised to solve health issues, offer self less service - Nepal

HEALTH & UNDER DEVELOPED AREAS

Aim - Achieving total health ie physical, mental, social particularly in underdeveloped areas.

Achievements - Lakhs and lakhs of people from underdeveloped area are taking benefit in India and through out the world.

Specialities - Swami Hardas Life System training and guidance programme are conducted in those areas.

Methodology -

- 1) Complete training of Swami Hardas Life System and practice regularly as per guidance. Ask for guidance wherever necessary. All these services are free of cost
- 2) Attend workshop
- 3) Attend regularly energy relay programme.
- 4) Tribal area is made healthier as under -
 - (a) Door to door survey shall be carried out note down their all problems
 - (b) Pre and post test shall be conducted for human beings , animal, water etc where ever required.
 - (c) They will be called at one place and will be trained in Swami Hardas Life System.
 - (d) Application of SHLS shall be done to raise productivity and efficiency
 - (e) Monitoring and follow up shall be done at the interval of 8-10 days and post test two and three shall be carried out to validate sustain ability.
 - (f) Further guidelines are given to participants to maintain their health at ideal and Natural & positive state for their entire life.

Requirements - (i) Support and co-operation from villagers and authorities. (ii) 4 to 5 SHLS volunteers can do the work. (iii) Accommodation, boarding and transport facility. (iv) Provisions for pre and post tests.

Benefits -

- 1) Total health can be achieved without expenses.
- 2) Efficiency capability can be increased.
- 3) Productivity can be increased.

Very Important -

'Health to All ' can be achieved in shortest possible time.

Making Villages Glorious means - Generally

Following things are done.

Phase - 1 Development:-

1. **Health** :- Total health to all. Solving all Health Problems, Making bed patients better healthy & capable.
2. **Capable** :- Making every one and the village capable to solve their own and others problems without medicine and money.
3. **Brotherhood** :- Establishing Co-ordination and Brotherhood to Establish Health and Peace.
4. **Ladies and Children** :- Solving problems and making them capable.
5. **Productivity** :- Increasing agriculture and related productivity.
6. **Food** :- Producing more poison less food with life energy in less expenses.
7. Solving all Possible Problems of the village.

Making Villages (Small) Glorious: :-

- 1) Partially Glorious Village period 2 to 5 days
- 2) Healthy Village solving all the health problems 5-10 days.
- 3) Model (Glorious) Village 10- 15 days

Conditions -

- 1) Depending upon actual conditions and support from concerned persons and authorities.
- 2) This period is required for primary stage, after which, guidance is given till the goal is achieved.

SHLS has so far made nearly 5500 villages partially glorious throughout India and other countries.

Team of experts, Govt. officers along with Dr. Swami Hardas, Kenya

Pre and post check up was done under experts, Ghana

Healing was done on self and others Uganda

Water was made potable by newly trained volunteers - Kenya

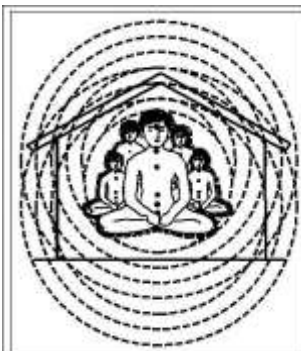

Addressing women issues by SHLS Nepal

PEACE TO ALL

We are healthy, peaceful, strong and progressive. We can make others healthy, peaceful, strong and progressive

Peace is the state of mind. Co-ordination, combination and harmony of body, mind and soul and similarly matching with the surrounding results bring peace in mind and bliss (ananda). Swami Hardas Life System brings body and all concerning matters to natural, ideal, positive state resulting in total health and peace which is very simple to learn and practice actual life. Hence all in the world can learn, practice and achieve health and peace easily.

All – means all in the world	Peace	Specialities –
<ol style="list-style-type: none"> 1. Individual 2. Every Family 3. Every Society 4. National peace 5. Peace in life 6. Internal Peace 7. Global peace 	<ol style="list-style-type: none"> 1. Preventive, curative, progressive 2. Minor peace problems 3. Major peace problems 4. Problems in actual life 5. Peace affecting factor 6. Co-ordination for peace 7. Energy field matching 	<ol style="list-style-type: none"> 1. No medicines and material 2. Reasoning out of minor nature 3. Affordable to all – Free or nearly free. 4. Simplest – easy to learn and practice. 5. Covers nearly complete range. 6. Harmless, no side effects. 7. No special requirements – hence, it can be used any time anywhere.

Application of Swami Hardas Life System for peace -is done by the organization and with governments and prestigious organizations in India and many countries in the world and the results recorded with most scientific methods are astonishing.

Swami Hardas Life System (SHLS) is totally most suitable because it covers preventive, curative, progressive methods for all subjects and matters concerning peace. Matching of energy field is most important which is the speciality of SHLS.

Results achieved - for references -

Sl. No.	SUBJECT	% SUCCESS	REMARKS	Methods -
1	PEACE <ul style="list-style-type: none"> • Peace to individual • Peace in family • Peace in society 	70%	Experience of last 12 yrs.	<ul style="list-style-type: none"> • Regular training, guidance and workshops are conducted for solving peace and problems in a scientific way. • Generally it is done for groups – small villages or areas. • Individuals also can take benefit. <p>How to take benefit –</p> <p>Interested persons / authorities should arrange the programme.</p>
2	<ul style="list-style-type: none"> • Co-ordination, Harmony • Individual life • Family • Organisation • Society 	70%	Experience of last 12 yrs.	
3	Various types of problems in life which disturb peace	70%	Experience of last 12 yrs.	

DEVELOPMENT OF UNDERDEVELOPED AREAS PHILANTHROPICALLY BY SWAMI HARDAS LIFE SYSTEM

The areas where even the basic facilities are not available are known as underdeveloped area. Due to lack of facilities the residents are suffering from many problems. Most of the countries in the world are either in developing countries or underdeveloped. So major part of the world is underdeveloped.

- Development of these areas is the need of the time, so that life and globe can be made glorious.
- All the Governments, International organizations and many others are struggling for the same.

(1) **Subjects** :- Subjects are decided from the statement of the village people, door to door survey and person to person interview and check up as per requirement, case sheet are prepared.

<p>They have following main problems</p> <ol style="list-style-type: none"> 1. Health facilities 8. Livestock 2. Livelihood 9. Agriculture 3. Peace and security 10. Viral diseases 4. Communication 11. Child development 5. Productivity 12. Emergencies 6. Adverse condition 13. Cleanliness 7. Shortage of water 14. Co-operation 15. Addiction etc. <p>- and many more making life miserable.</p>	<ul style="list-style-type: none"> • They all are our brothers and sisters. • Efforts put by Swami Hardas Life System have been giving really astonishing and unbelievable results and the same is documented and published in our monthly magazine 'Astonishing Facts & Figures'. 	<p>(1) Important - Development of underdeveloped area is done philanthropically by Swami Hardas Life System.</p> <p>(2) To make village as model village - construction of road, drainage, toilet, water supply system etc Should done by the authorities. Because we don't have funds.</p>
---	--	---

(2) **Method of offering services - Philanthropic.**

Application of Swami Hardas Life System for Development of underdeveloped areas – is proved as the best method due to the following facts -

1. Without - Medicine and material 8. Harmless system, safest way
2. Without - Money – Free or nearly free 9. Controlling adverse conditions to great extent
3. Without - Specialists 10. Trying to solve all their problems
4. Without - Infrastructure, Equipments 11. Development of children
5. Within the - Reach of every person 12. Making them capable to solve their problems today & for whole life.
6. With - Honour and dignity because they all are our brothers and sisters.
7. With - Most result orientation

- We need support for carrying out pre, post sustainability checking.

(3) **Success we could get :- Results achieved are astonishing and unbelievable. Some of which are given below for reference –**

Sl.No.	SUBJECT	% SUCCESS	REMARKS
1	Making Model Village	50%	Experience of last 6 yrs.
2	Making villages partially Glorious or solving problems.	85%	We have 18 yrs of experience in this work.
NOTE : Swami Hardas Life System has made more than 5500 villages partially glorious in India and other countries.			
3	Making villages healthy	90%	Experience of last 6 yrs.

Result oriented proven system very successfully has done this work as shown below:-

SL.NO.	WHAT	FACTS
1	Making villages healthy, peaceful, and co-operative, establishing brotherhood and humanity	In India - 5300, In Ghana - 44 In Kenya - 02, In Uganda - 04, In Nepal - 04
2	Eradication of mysterious virus killing a large number of persons in the state of Uttar Pradesh	In the state of Uttar Pradesh, India wherein 146 this mysterious Virus was wiped out. villages
Total number of villages accomplished till January 2014		5500 Villages

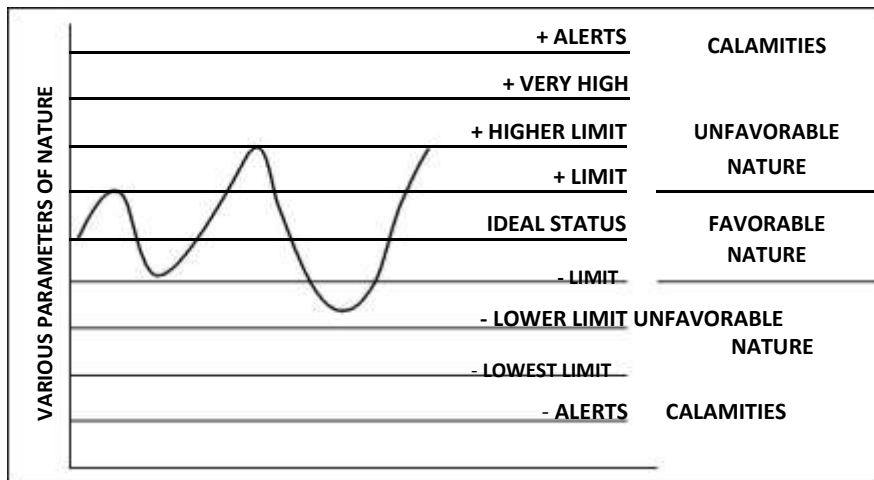

(4) **For make village as model village -**

- (a) Construction of toilets, drainage system etc.
 - (b) Water supply system, roads etc.
- We cannot do.
 - Because we don't have funds. Authorities should do.

MAKING NATURE FAVORABLE

Making nature favorable for human, animal, plants and all is possible by Swami Hardas Life System. Nature plays great roll in development and making life of all glorious.

Various parameters can be brought in favorable range as shown in diagram :

- Various factors of nature - (1) Temperature (2) Pressure (3) Humidity (4) Rains (5) Air (6) Cyclones (7) Viral diseases (8) Pollution of air, water, soil etc. (9) Harmful effects of cyclone and natural calamities (10) and nearly all parameters.

Ranges of the parameters -

- 1) **Favorable nature** - The parameters within the range are very good and favorable for human, animals, plants and all. Development in respect becomes faster and better way and life becomes glorious. This is called natural, ideal, positive of nature.
- 2) **Unfavorable nature** - Parameters if goes slight high or low the life become slightly uncomfortable but doesno not harm life's development. Life can be made glorious. It ranges from higher than favorable limit to the higher range of limit in higher or lower side.
- 3) **Calamities** - This is extreme limit / unfavorable caused losses, damages to life and properly depending inthe severity.

Swami Hardas Life System has got success to same extent in this regards on our in house experiments out of which water, viral diseases and agriculture explain separately.

WATER

'Water is life' - Water is life which explains its importance in actual life hence all human, animals, plants and wherever necessary should get sufficient quality water.

Swami Hardas Life System has really made great work in this respect.

AGRO SIDDHA TECHNOLOGY

Swami Hardas Life System invented by Dr. Swami Hardas has given wonderful solution for Agriculture Siddha Agriculture is done by using Siddha energy numerous experiments were conducted in past. The results achieved so far really encouraging and wonderful. Since past more than 13 years it is applied by farmers the reports/realisations were conveyed over phone and month to month due to lack of literacy unavailability of recording means. The specialities of Siddha Agriculture one as under -

1. **No chemicals, fertilisers are required.**
2. **Quality and quantity can be raised considerably in less expenses.**
3. **Farming can be done in adverse condition.**
4. **Fertile capacity of land can be increased upto a great extent.**
5. **Ground water level can be enhanced.**
6. **Production of poison less life energetic food is done.**
7. **Live stock efficiency can be energetic.**
8. **Unwanted grass does not grow, hence labor and money are also saved. The loss from such grass to the crops are also prevented.**

Since there are only benefits and no loss or side effects from this farmer, his family members, animals, society, nation and world are benefitted at large in all aspects.

SL. NO.	PROBLEMS	SWAMI HARDAS LIFE SYSTEM (SHLS)			REMARKS
		SOLUTION	PROVED	WHAT CAN BE DONE	
1	Productivity of agricultural products and animals	Has proper solution	Yes, proved in practical field	Productivity can be increased to 100%	Productivity of agricultural product and animals can be increased
2	Cost	Has proper solution	Yes, proved in practical field	Productivity and quality can be increased with very low cost	Cost of cultivation is reduced and productivity with qualitatively and quantitatively
3	Seeds Germination	Has proper solution	Yes, both in laboratory and field	Germination can be great extent.	Resulted in best plants with less seed required
4	Water and soil	Chemistry of water, soil can be changed to favorable productivity	Yes, both in laboratory and field	Productivity can be increased both qualitatively and quantitatively of water and soil.	Fertilisers and chemicals are not required
5	Plants - trees	Has proper solution	Yes, both in laboratory and field	Healthy plants, trees grown and hence productivity gets increased	Healthy plants and trees results into increasing productivity both qualitatively and quantitatively
6	Adverse conditions	Adverse condtions can not harm much	Yes, proved in actual field	No loss	Loss by adverse conditions is avoided to great extent
7	Diseases	Yes, perfect solution up to great extent	Yes, proved in practical field	Loss due to diseases can be minimised	Loss, damage can be reduced to great extent
8	Poison	Yes, fertilisers, chemicals not used	Yes, proved in practical field	Healthy food with life energy can be produced	People saved from ill effects of slow poisoning.

SOME OF THE RESULTS ACHIEVED ARE GIVEN HERE FOR REFERENCE

SL NO	SUBJECT	SPECIALITIES	% SUCCESS	REMARKS
1	NATURE			
1.1	Raising Ground Water Level	1) by Siddha Energy Relay from distance 2) by Siddha Exercise on the spot	70% 70%	1) Proved on our own level and govt level. 2) Further experiments are in progress.
1.2	Making water potable	1) by Siddha Energy Relay from distance 2) by Siddha Exercise on the spot	50% 50%	1) Proved on our own level and govt level. 2) Further experiments are in progress.
1.3	Controlling Temperature	Various Methods	15%	1) Proved on our own level and govt level. 2) Further experiments are in progress.
1.4	Controlling Rains	Various Methods	20%	1) Proved on our own level and govt level. 2) Further experiments are in progress.
1.5	Other Projects 1) Ozone layer depletion 2) Solar Storm impacts 3) Improving fertility of land overcoming pollution 4) Minimising various forms of air pollution	Various Methods	Up to 15%	1) Proved on our own level. 2) Further experiments are in progress.

Important Expectations - If ongoing projects become successful major problems across the world can be solved. Further research and development are in progress.

Programmes conducted by the Organisation with the support of volunteers.

Agriculture-Volunteers of SHLS controlled the dreadful disease caused on pomegranate field called Telya” by application of Swami Hardas Life System. More than 200 experiments on agriculture were conducted with 60% efficiency.

Programmes conducted by Organization with support from Govt. in a few States.

Agriculture- In Karnataka SHLS was applied on lady's finger field at Village Nowkalpalaya, which were affected by disease and the plants were shriveling, which was brought back to a healthy and lush green state within 4 hours by the application of SHLS. Similar results were noted in 30 different locations with 80% success.

Live-stock- On application of SHLS the lactating capacity of cows was found increased of about 200 ml per day. Similarly a cow which was not taking any food for about a couple of weeks started grazing and taking food on application of SHLS. Such experiments with live stock were also conducted at 30 different locations with 80 % success.

Further, research and development as well as their application work are going on satisfactorily. This has proved that SHLS has got capability in removing negativities and limitations present inherently in scientific methods. If proper support is extended to the foundation, it will not be difficult to cover cent percent population across the world in a short period of time.

We are confident from the results achieved to take up the programme of health, peace, progress and prosperity to all at an international level for the benefit of mankind.

This proves the efficiency and capability of Swami Hardas Life System – further research is necessary with your support and assistance to achieve complete success.

So – LET US MAKE LIFE AND GLOBE GLORIOUS
